The Company

Our client is one of Australia's leading providers of employee management services, associating with employers to streamline salary packing, share plan administration, payroll services and more.

You will be working within an expanding Cyber Security team developing the Security Architecture Strategy and Supporting Practices within the organisation.

The Role:

As the Cyber Security Architect, you will own the development of the Security Architecture Strategy whilst identifying security design gaps in existing and proposed architectures and recommend effective changes or enhancements.

The successful candidate is expected to have the ability to design and guide the implementation of cyber security protocols and standards to manage security risks and threats across my client's infrastructure.
You will aid with vendor selection and management criteria, in relation to SOC or similar compliance, ensuring that our client's exposure is managed.

Responsibilities Include:

- Guide enterprise architecture and development teams on industry security practices
- Assist in the definition and design of standards, frameworks and architectures that align with overall business, technology, and cyber security strategies

- Identify and communicate current and emerging security threats and technology trends
- Design solutions that balance business requirements with information and cyber security requirements
- Contribute to cyber security strategies to continuously monitor and improve my client's threat and risk profile

Key Requirements:

- Strong technical knowledge of Microsoft products, cloud architecture, microservices, application and infrastructure security protocols
- 5+ years with Threat and risk analysis, architecture blueprint development, design assurance or security engineering
- Experience with ISO27001, NIST and Azure Cloud Security Architecture
- A strong understanding of threat modelling, global industry practices, technical standards, and security architecture
- SABSA, ISSAP, CISM, SANS, CISSP or equivalent certifications.

Aboriginal and Torres Strait Islander Peoples are encouraged to apply.

To apply please click apply or call Cody Berry on 02 8289 3123 for a confidential discussion.
